

## Le Mans Ultimate To Add First LMGT3 Cars, Interlagos as DLC with Hosted Private Servers and Optional Subscription Features

December 3, 2024

MIAMI, Dec. 03, 2024 (GLOBE NEWSWIRE) -- Motorsport Games Inc. (NASDAQ: MSGM) ("Motorsport Games" or "the Company") is set to release the next update for "Le Mans Ultimate", the official game of the FIA World Endurance Championship and the 24 Hours of Le Mans on December 10 2024. This latest update increases the content available to players by adding four of the new for 2024 LMGT3 category cars. The McLaren 720S LMGT3 Evo will be available for free to all users in Early Access and the remainder forms Pack 3 of the 2024 Season Pass along with the Interlagos circuit.

Significant game updates, expected to increase player experience, also come in this update. The ability for players to host their own game server has been added, unlocking the ability to run races with friends and communities for the first time. Players can access this paid-for server service via [www.racecontrol.gg](http://www.racecontrol.gg).

Further game improvements are also to be found across the board with technology improvements showing a significant decrease in loading times of around 30% and memory utilization improvements should improve performance for many users, particularly at race starts. From a physics perspective, a detailed ABS system to support the new LMGT3 category has been added and other enhancements have been made as the result of real-world data and feedback from drivers, teams and manufacturers.

Additionally, a new optional RaceControl Pro subscription for players is now available, allowing users access to extended online features, including a unique Online Championship mode aimed at competitive players which is expected to be made available in future power online esports competitions such as 24 Hours of Le Mans Virtual and the Le Mans Virtual Series. A Pro+ account includes all Pro benefits but includes all DLC content for *Le Mans Ultimate* and for Studio 397's *rFactor 2* for as long as their subscription remains active. Prices start from \$4.00 per month for this subscription on an annual term for RaceControl Pro users and \$7.00 for Pro+ with sign up also available exclusively through [www.racecontrol.gg](http://www.racecontrol.gg). Final prices paid may be subject to local taxes where applicable.

Available for free to all users in Early Access is the McLaren 720S LMGT3 Evo. This car from the British supercar brand gives all users a taste of LMGT3 machinery and can be raced against all other cars in the category both in online and offline game modes, regardless of whether they own additional content or not.

The third of four DLC packs, named "2024 Pack 3" contains the Interlagos circuit and the remaining LMGT3 cars included in this release. The Ferrari 296 LMGT3, Corvette Z06 LMGT3.R and BMW M4 LMGT3, as piloted by MotoGP™ superstar Valentino Rossi in this year's FIA World Endurance Championship, all bring unique sportscar experiences to the title for players to enjoy with immersive sound and distinctive physics models as they battle for supremacy out on the track.

The pack is on sale at an early access price of **£13.99 / €16.99 / \$17.99** or users can purchase the Season Pass for **£39.99 / €46.99 / \$48.99**. The Season Pass includes four packs in total with Pack 1 and 2 already released in July and September 2024 respectively. The remaining pack is expected for players to enjoy in Early 2025 and are scheduled to include the remaining 3 LMGT3 cars and 1 more circuit - all users will be receiving an additional LMGT3 car as a free download without purchase to bring the total grid of LMGT3 cars to 9.

"This is perhaps our biggest update yet to Le Mans Ultimate," enthused Stephen Hood, CEO of Motorsport Games. "Players can finally race against friends in communities and leagues by hosting their own server and we have also delivered hotly anticipated LMGT3 cars, perfect for all skill levels with uniquely high-fidelity physics modelling in their construction."

"Additionally, it is very pleasing to further expand the feature set of our growing online service deployed through RaceControl. The long-promised optional subscription tier we believe offers great value in both the additional online features and the ability for Pro+ subscribers to get the 'all you can eat' DLC content across all Studio 397 games in one easy monthly or annual price."

To purchase *Le Mans Ultimate*, the *Season Pass*, or individual *DLC Packs*, visit [Le Mans Ultimate on Steam](https://www.racecontrol.gg). Head to [www.racecontrol.gg](http://www.racecontrol.gg) to configure private servers or subscribe to the new RaceControl Pro or Pro+ account options.

### About Motorsport Games:

Motorsport Games is a racing game developer, publisher and esports ecosystem provider of official motorsport racing series. ## Forward Looking Statements

Certain statements in this press release which are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are provided pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Any statements in this press release that are not statements of historical fact may be deemed forward-looking statements. Words such as “continue,” “will,” “may,” “could,” “should,” “expect,” “expected,” “plans,” “intend,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” and similar expressions are intended to identify such forward-looking statements.

These forward-looking statements include, but are not limited to, the statements concerning releasing the next update for “Le Mans Ultimate”, increasing the content available to players by adding four of the new for 2024 LMGT3 category cars, significant game updates increasing player experience, unlocking the ability to run races with friends and communities, technology improvements decreasing in loading times and memory utilization improvements improving performance for many users particularly at race starts, including Online Championship mode in future power online esports competitions and the RaceControl optional subscription tier offering great value in both the additional online features and the ability to get DLC content across all Studio 397 games in one easy monthly or annual price. All forward-looking statements involve significant risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the forward-looking statements, many of which are generally outside the control of Motorsport Games and are difficult to predict. Examples of such risks and uncertainties include, without limitation, the ability to release the next update for “Le Mans Ultimate” as scheduled and the ability of the game updates to increase the player experience, decrease loading times and improve performance for users.

Additional factors that could cause actual results to differ materially from those expressed or implied in the forward-looking statements can be found in Motorsport Games’ filings with the Securities and Exchange Commission (the “SEC”), including its Annual Report on Form 10-K for the fiscal year ended December 312023, as well as in its subsequent filings with the SEC. Motorsport Games anticipates that subsequent events and developments may cause its plans, intentions and expectations to change. Motorsport Games assumes no obligation, and it specifically disclaims any intention or obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as expressly required by law. Forward-looking statements speak only as of the date they are made and should not be relied upon as representing Motorsport Games’ plans and expectations as of any subsequent date. Additionally, the business and financial materials and any other statement or disclosure on, or made available through, Motorsport Games’ website or other websites referenced or linked to this press release shall not be incorporated by reference into this press release.

## Website and Social Media Disclosure

Investors and others should note that we announce material financial information to our investors using our investor relations website ([ir.motorsportgames.com](http://ir.motorsportgames.com)), SEC filings, press releases, public conference calls and webcasts. We use these channels, as well as social media and blogs, to communicate with our investors and the public about our company and our products. It is possible that the information we post on our websites, social media and blogs could be deemed to be material information. Therefore, we encourage investors, the media and others interested in our company to review the information we post on the websites, social media channels and blogs, including the following (which list we will update from time to time on our investor relations website):
